

DIAPER-DEPOT® HORIZONTAL BABY CHANGING STATION

MEETS ASTM CONSUMER SAFETY PERFORMANCE STANDARDS FOR COMMERCIAL DIAPER CHANGING STATIONS

MEETS ADA ACCESSABILITY GUIDLINES*

DIAPER-DEPOT® Horizontal

This unit combines innovative design with a large, concave bed (32 1/2" x 18 1/2"), making this diaper changing station perfect for any restroom. When not in use, the closed unit protrudes only 4 inches in compliance with ADA 4.4.1 Protruding Objects when installed to the manufacturer's specifications.

Colors Available/Model Numbers

Ivory	Model #2300	White	Model #2304
Powder Gray	Model #2301	Speckled Gray	Model #2318

- Full color universal pictorial safety instructions written in four languages and molded permanently into the unit which guarantees they never come off
- Sleek, contemporary design
- 16" on center mounting holes
- Dual liner dispensers. Liners easily gravity feed from top
- Fully hidden gas shock
- Large concave bed for safety and added comfort
- An original Safe-Strap® restraint permanently mounted with tamper resistant hardware
- Complies with ADA 4.27.4 Operation with One Hand or Closed Fist
- Molded-in hook area to hang and keep diaper bag within arms reach
- Rounded edges help prevent injuries to children

Our Diaper-Depot diaper changing stations are available in four attractive colors to compliment any restroom: Ivory, Powder Gray, White and Speckled Gray. Every unit includes mounting hardware and a mounting template with instructions printed in English and Spanish for easy installation. We offer custom colors and logos available (minimums apply). Since our units conform to ASTM standards and ADA Guidelines* you can rest assured that our units are safe, long lasting and designed to be used by all of your customers with small children.

*All units comply with ASTM PS 125 and meet ADA accessibility guidelines when applicable and when installed to the manufacturer's specifications (4.4.1 Protruding Objects, 4.2.5 Forward Reach, 4.2.6 Side Reach, 4.23.3 and 4.23.7 Fixtures, 4.27.4 Hand Operation, 4.32.3 Knee Clearance and 4.32.4 Height of Counters)
