

## Diaper Changing Stations/Child Seat

- Diaper changing station is safe and convenient for child and parent.
- Bed features smooth concave changing area with safety strap, hooks for bags and purses, and universal instruction graphics.

- Pneumatic cylinder provides controlled, slow opening and closing.
- Unique design allows specifier to choose surface- or semi-recessed installation, with or without multi-size liner dispenser.

- Applications: Transportation and recreation facilities, healthcare, retail.
- Child Seat is ideal for installation in toilet compartments and fitting rooms; keeps child safe and off the floor.

**B-2210 SURFACE-MOUNTED DIAPER CHANGING STATION** Provides safe, convenient location for parent and child in public washroom. Bed features smooth concave changing area with safety strap, hooks for bags and purses, and universal instruction graphics. Pneumatic cylinder provides controlled, slow opening and closing. Nonporous polyethylene resists odors and bacterial growth; matches Bobrick color #1500N Grey. Unit has foam core for added durability. No hinge structure exposed on interior or exterior surfaces. Bed secured to back plate with concealed full-length stainless steel hinge rod with steel bushings imbedded in plastic. Supports up to 250 lb (113kg) when properly installed. Equipped with multi-size liner dispenser that accommodates many commercially available folded liners and dental bibs, as well as C-fold or multifold paper towels measuring 6 1/2" to 10 5/8" long by 2 5/8" to 4 7/8" wide (165–270mm x 65–125mm). Unique design allows unit to be semi-recessed into wall opening 4" (102mm) deep. Unit measures 32" W, 20" H (815 x 510mm). When closed, surface-mounted unit projects 4" (102mm); semi-recessed unit projects 1 5/8" (40mm). When open, surface mounted bed projects 19" (485mm) from wall; semi-recessed bed projects 16 5/8" (420mm). For semi-recessing, provide Rough Wall Opening 30 1/2" W, 18 1/2" H, 4" D (775 x 470 x 102mm). Patented.

**B-2200** Similar to B-2210, but without multi-size liner dispenser. Patented.

**2210-40 LINERS FOR DIAPER CHANGING STATION** Optional accessory for multi-size liner dispenser in Model B-2210. Case of 500 absorbent paper liners with soil-resistant plastic backing.

**B-2230 CLASSIC SERIES SURFACE-MOUNTED DIAPER CHANGING STATION** Provides safe, convenient location for parent and child in public washrooms at a budget price. Unit features a smooth concave changing area with nylon safety strap, two hooks for bags, purses and instruction graphics. Durable, high-impact polyethylene body resists odors and bacterial growth. Pneumatic cylinder provides controlled, slow opening and closing of bed. No hinge structure exposed on interior or exterior surfaces. Bed secured to backplate with concealed full-length stainless steel hinge rod with steel bushings embedded in the plastic. Unit supports loads up to 250 lb. (113kg) when properly installed. Equipped with liner dispenser that accommodates many commercially available folded liners. Unit measures 34 1/4" W, 16 7/8" H (870 x 430 mm). When closed, surface-mounted unit projects 4" (102 mm) from wall; when open, bed projects 18" (455mm). Patented.

**B-2220 PARTITION-MOUNTED CHILD SEAT** Provides safe location off of floor for child with parent inside toilet compartment or fitting room. Features safety strap and hooks for bag or purse. Polyethylene matches Bobrick color #1500N Grey. Supports up to 80 lb (36kg) when properly installed. Closed unit measures 13" W, 18" H, 4 1/2" D (330 x 455 x 115mm). Seat projects 13 1/4" (335mm) from partition when open. Patents pending.
